the vertical adjustment
easier.
23,60 Euro per point

(above) Hanging point with drop.

You may have your points anywhere over your stand area in accordance with the rules of the Trade Fair. You will find some guidelines under Technical Info but for up to date information you need to contact the Trade Fair service office.

Ordering - To order points you need **form 4.1 and 4.2** from the exhibitor service office.
To order **Truss, Lights and Hoists** you need **form 4.3**

Information we need to plan your suspension points:

6mm or 8mm steel - Points that require manual or electric hoists must now be made of 8mm steel in accordance with new regulations for safety. It is important that you inform us if you need 6mm or 8mm steel.

Height - We need to know the height of your point above the floor.
Please allow space for motors if required. Usually 1.5m drop

Orientation - To save our time and yours please give as much information as possible on your plan including walls, neighboring stands and aisles adjacent to your stand.

Scale - If your plan is to scale make sure to scale is written on the plan.
If faxing your plan to us it will no longer be to scale. In this case we need dimensions. See example plans.
